### PROGRESS IN JAPAN.

A correspondent of the Allgemeine Zeiting gives a very interesting account of Japanese progress. He says the Mikado continues to astonish the world by the reforms which he accompanied by the steel por ruit of Cooper. The volumes of series will be mailed to each subscriber, post phshes. At Yeddo alone, hve new colleges, capable of accomoditing fitteen bundred to three thousand cold dren, have been established, and the largest house in the city has been set apart for instruction in science and modern languages. Twen'y three Frenchmen have been engaged as na val instructors. Meanwhi e manufac puling interests are not neglected, and twenty shoemakers and ten brewers are on their way from Bivaria. The civilizing influence of lager will no doubt, therefore, soon begin to tell upon the Japanese. The writer says that it is now adays a title of honor to do the very things which would have cost you your life but a short time

al practice prevalent among the poor of selling their daughters, a comms sion will be appointed with the view of making a rangem ats for the state to take the children under its protecsion and educating them. The Damros are, meanuable, having a rather I ad time of it, and probably survey all these innovations with no slight dismay. A good many of them have been summoned to Yeddo, to prevent their interference while administrative changes are being mide in the provinces. The large force of soldiers which these charitains have been accustomed to keep about them, will be disarmed, and portions of land will be alotted to the men in compensation. The Code Napoleon is being translat ed, and will become the basis of a new system of law. Religious affins also come in for their share of attention, and the very strong step has been taken of ordering the Buddhist tem ples to ne closed. The new postal administration lashad rather a bloody commence nent in the assassination of two letter carriers. An English? steamship has been purchised by the
